

Exploring Geography Through Film

Exam Board: None

Duration: 1 Year

What is it worth? Enrichment

Why take this course? Who is it for?

This course is designed for people who love Geography and want to find bits that we don't cover in examination subjects. This course designed to take a fun approach to the development of geographical knowledge and would be ideal if you have an interest in the world around you. Take this course if you want to know about geography without the pressure of examinations and if you want to discuss what you have learned and have real debates about the portrayal of geography in the media.

What does this course involve?

Watching a variety of geographical films, you will then be expected to write about and discuss the way that these films portray geography and how accurate and useful you think this is. You will compare the different ways in which films have portrayed the same event or people, get to talk about geography with people who love the subject as much as you do and have a real debate about geography. We will present some of our findings about geography by making movies, displays and presentations.

What possible progression routes are available after taking this course?

This course will develop your wider geographical knowledge which can only be good for your general knowledge but also fill in the bigger picture that GCSE and A level Geography can't cover. You can progress onto GCSE Geography, A Level and then on to a degree if you wish.

What are the special features?

The chance to enjoy geography for its own sake. The chance to learn without the pressure of examinations.

What possible careers follow on from this course?

The skills you develop can lead you to employment opportunities in journalism, media, engineering, ICT, travel and tourism, environmental management, Marketing, business management and teaching.

How you will be assessed?

Enrichment Course so no examinations.

Who do I see for further information?

Mrs Phillips or Mr Broad
