

Gifted and Talented Mathematics

Mathematics

Duration: 1 Year initially—you can choose this option for a second year though, if you want to.

What is it worth? This option is designed to help students reach for the A/A* grade in GCSE Mathematics

Why take this course? Who is it for?

Take this course if you really want to succeed at the highest level in your Mathematics GCSE. Whether you have a target grade of A/A* or you simply want to challenge yourself to hit the top grades, this is the option for you.

What does this course involve?

This course will introduce you to all the A/A* topics that are on the Higher GCSE Syllabus. The course will allow you to spend time on these more challenging topics that you will also meet during your core Mathematics lessons

What possible progression routes are available after taking this course?

Achieving a grade A/A* at GCSE Mathematics opens up so many opportunities for both further study and entry into the workplace, there is not enough space here to list them all here!

What are the special features?

You will be taught by the 'strongest' teachers in the department, in a small, focused group. This unique atmosphere means you get more time with the teacher and the lessons can be focused on the areas YOU need.

What possible careers follow on from this course?

More people than ever are now applying to do A-Level courses. Being able to say the you have a grade A or even A* in GCSE Mathematics could be thing that gets you onto the course that you want. Even if you are thinking of getting a job after GCSE study, imagine walking into a job interview knowing that you can say you have an A or A* GCSE grade!

How you will be assessed?

There is no formal assessment—the course is designed to support the teaching/assessment you get in your core Mathematics lessons

Who do I see for further information?

Miss Nunn
